ELIJAH WALKER

elijahjames.walker@gmail.com | Boise, ID | linkedin.com/in/elijah-the-walker

PROFILE

Artificial Intelligence & Cloud Computing student with a strong foundation in programming, machine learning, and data analysis.

SKILLS

- Leadership
- Collegiality
- Python
- Scikit-learn
- MariaDB, SQL queries
- Linux command line
- Data visualization, Seaborn, Tableau
- Microsoft Office Suite
- Pandas, NumPy, Matplotlib

EDUCATION

Associate of Applied Science: Artificial Intelligence & Cloud Computing

College of Western Idaho | Fall 2025 – Present (Expected Spring 2027) | GPA: 4.0

Relevant Skills: Agentic engineering, cloud computing, programming, statistical analysis, data visualization.

EXPERIENCE

Process Control Technician Intern

Micron Technology (Manassas, VA) | Jun 2026 – Aug 2026

Technical Duties: Reviewed metrology data and analyzed SPC charts; supported tool troubleshooting and engineering escalations.

Operational Duties: Shift passdowns, ticket escalation, change documentation, effective team communication, cleanroom etiquette.

Support Staff, Camp Store & Digital Media Manager

Quaker Hill Camp & Conference Center (McCall, ID) | Jun 2016 – Dec 2024, Dec 2024 – May 2026

Technical Duties: Media marketing, digital assets, IT services, product inventory and design, resource planning and data organization, staff training.

Operational Duties: Adapted to varying tasks according to client group size and individual needs.

Leadership: Support staff training, client group facilitation, coordinated and efficient team efforts within and between departments, customer service.

PROJECTS

github.com/ennels

Breast Cancer Tumor Classification (SVM)

Python, Scikit-learn, NumPy, Matplotlib | Sep 2026

Trained linear and RBF-kernel support vector machines on the Wisconsin Breast Cancer dataset to classify tumors as malignant or benign. Preprocessed and split the data (80/20) and compared kernel accuracy (95.6% linear, 96.5% RBF) with 0.95 recall on malignant cases. Plotted decision boundaries and showed confusion matrices.

Black Friday Shopping Trends

Google Sheets, SurveyMonkey | Oct 2025 – Dec 2025

Co-designed/fielded a 10-question survey (n=39) on the shift from in-person to online Black Friday shopping from 2024 to 2025. Ran a χ^2 goodness-of-fit test (χ^2=0.13, p=0.72; found no significant year-to-year change) and a second, mirrored χ^2 test to check response consistency (p=0.04). Found 49% of respondents less likely to shop in person.
